Interconnected Smoke Alarm - SD20-W

with LED Warning Light 10-Year Battery

X-SENSE

Highlights:

- **Wireless Interconnection** – Integrate smoke alarms for better safety and response in an emergency. One alarm trigger, all alarms response.
- **Photoelectric Sensors** – Reduce false alarms caused by cooking or steam.
- **10-Year Battery** – No battery replacement and maintenance needed.
- **Self-Testing** – Automatically check on sensors, batteries, and circuitry.
- **3-Color Status Indicators** – LEDs signal operation status (green, yellow, red) alongside a digital display for precise power and danger readings.

Smoke & CO Alarms

Accurate Detection

Two sensors - photoelectric and electrochemical

360° air inlets

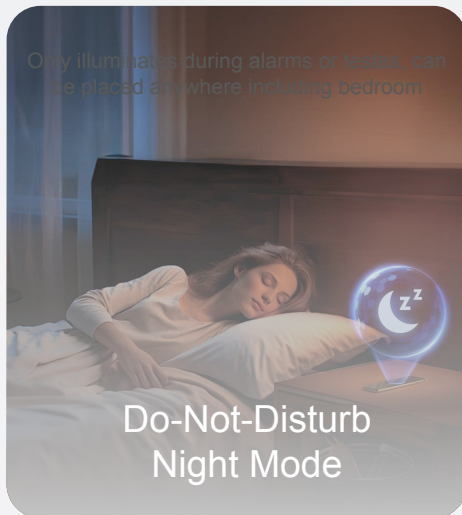

3 air samples every 10 seconds

X-Sense Combination Smoke & CO Alarm

Only illuminates during alarms or tests, can be placed anywhere including bedroom

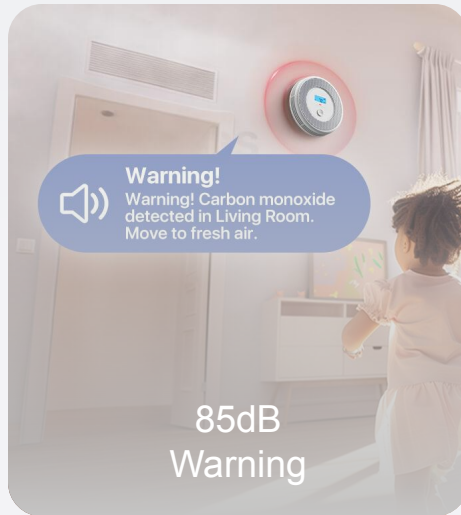

Do-Not-Disturb
Night Mode

Warning!

Warning! Carbon monoxide detected in Living Room. Move to fresh air.

85dB
Warning

Smoke and CO Alarm - SC07

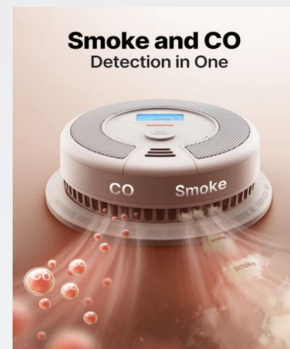

with LCD Display and LED Warning Light 10-Year Battery

X-SENSE

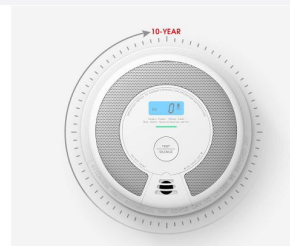

Highlights:

- **LCD Display** – The digital screen displays real-time CO concentration (PPM) and battery life.
- **Photoelectric and Electrochemical Sensors** – Reduce false alarms caused by cooking or shower steam.
- **10-Year battery** – No battery replacement and maintenance needed.
- **Easy Installation** – No hardwiring required, mounts easily to walls or ceilings with the included twist-and-lock bracket.
- **3-Color Status Indicators** – LEDs signal operation status (green, yellow, red) alongside a digital display for precise power and danger readings.

Built-In Informative LCD

An easy-to-read LCD indicates real-time CO concentrations (30-999 ppm), battery status, and the alarm's working status, allowing you to know what's going on at a glance.

Smoke and CO Alarm - SC07-W

with LCD Display and LED Warning Light 10-Year Battery

X-SENSE

Highlights:

- **Wireless Interconnected** – All interconnected alarms sound to provide whole-home alerts.
- **LCD Display** – The digital screen displays real-time CO concentration (PPM) and battery life.
- **Photoelectric and Electrochemical Sensors** – Reduce false alarms caused by cooking or shower steam.
- **10-Year battery** – No battery replacement and maintenance needed.
- **3-Color Status Indicators** – LEDs signal operation status (green, yellow, red) alongside a digital display for precise power and danger readings.

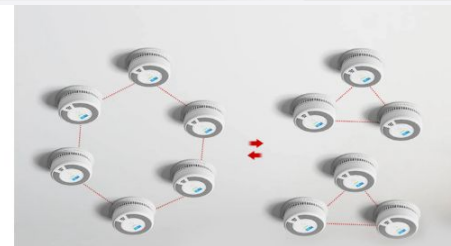

Built-In Informative LCD

An easy-to-read LCD indicates real-time CO concentrations (30-999 ppm), battery status, and the alarm's working status, allowing you to know what's going on at a glance.

Wireless Interconnection

Customizable Wireless Network

Smoke and CO Alarm - SC06

with LCD Display and LED Warning Light 10-Year Battery

X-SENSE

Highlights:

- **Photoelectric and Electrochemical Sensors** – Reduce false alarms caused by cooking or shower steam.
- **10-Year battery** – No battery replacement and maintenance needed.
- **Easy Installation** – No hardwiring required, mounts easily to walls or ceilings with the included twist-and-lock bracket.
- **3-Color Status Indicators** – LEDs signal operation status (green, yellow, red) alongside a digital display for precise power and danger readings.

Smoke and CO Alarm - SC06-W

with LCD Display and LED Warning Light 10-Year Battery

X-SENSE

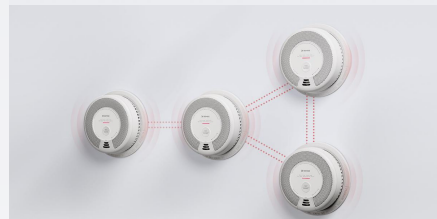

Highlights:

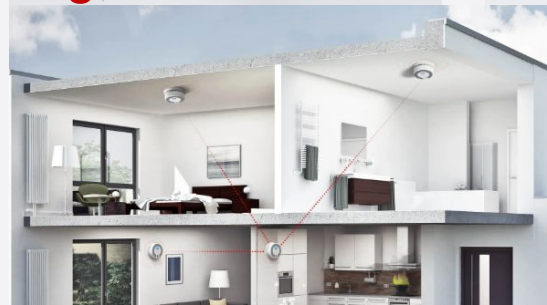

- **Wireless Interconnected** – All interconnected alarms sound to provide whole-home alerts.
- **Photoelectric and Electrochemical Sensors** – Reduce false alarms caused by cooking or shower steam.
- **10-Year battery** – No battery replacement and maintenance needed.
- **Easy Installation** – No hardwiring required, mounts easily to walls or ceilings with the included twist-and-lock bracket.
- **3-Color Status Indicators** – LEDs signal operation status (green, yellow, red) alongside a digital display for precise power and danger readings.

Easy to Install in Only Minutes

Stable, Extensive Wireless Network

Product Details

Links up to 24 Link+ wireless alarms for total home coverage

Quick Location of Source Alarm

During an emergency, the source alarm will flash red while the other units will alternate flashing red and green, so you can quickly find where the danger is coming from.

Radon Detector

with LCD Display, 2-Year Battery

X-SENSE

Test Your Nest for Invisible Threat

Radon is the silent threat causing lung cancer. You ought to protect your house from this radioactive gas. The EPA suggested that every home should do a test for it.

Highlights:

- **Periodic Radon Trackback** – Displays 4 short-term intervals for quick checking at a glance. 1/7/30/90 Days Cumulative
- **Certified Accuracy** – High-performance sensor delivers **over 95%** accuracy.
- **Advanced Data Retention Design** – Ensure up to **999 days** of continuous monitoring.
- **Check It the Easy Way** – Physical buttons are designed for all the function you need.

Periodic Radon Trackback

Displays 4 short-term intervals for quick checking at a glance.

Certified Accuracy

High-performance sensor delivers over 95% accuracy.

Note: For best results, test for 7 days or more.

Advanced Data Retention Design

Ensures up to **999 days** of continuous monitoring.

After battery replacement, previous data can be continued without interruption.
For more accurate data, please restore power within 4 hours.

Smart Water Leak Alarm - SWS51

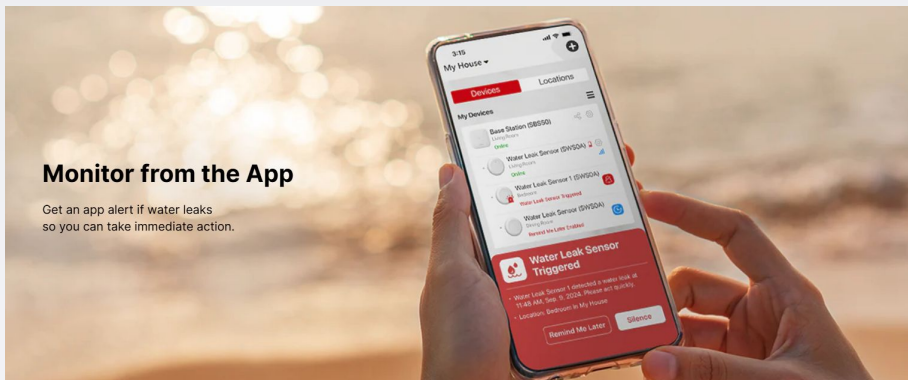

with App Control

X-SENSE

Highlights:

- **Real-Time App Alerts** – Receive instant notifications on your smartphone the moment a leak is detected, no matter where you are.
- **5-Year Battery Life** – Powered by high-capacity replaceable batteries with ultra-low power consumption for long-term reliability.
- **IP66 Waterproof Design** – A fully sealed, rugged exterior allows the device to function reliably even when fully submerged.

Monitor from the App

Get an app alert if water leaks so you can take immediate action.

Long-Lasting

Enjoy up to 5 years of reliable use with this sensor, powered by replaceable batteries that last for 3 years.

Smart Water Leak Alarm - SWS0A

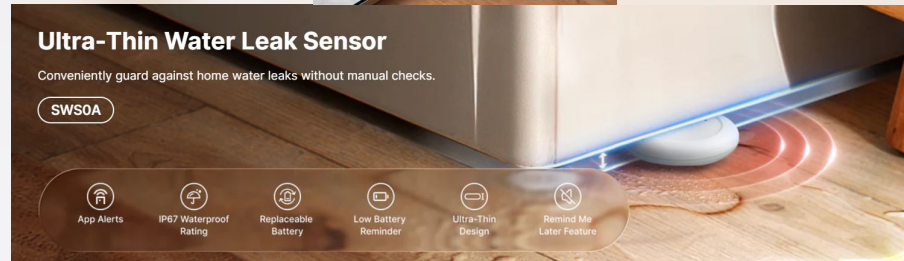

with Ultra-thin Size and App Control

X-SENSE

Highlights:

- **Ultra-Thin Profile** – The slim design fits easily under low-clearance appliances like dishwashers, refrigerators, and washing machines.
- **Real-Time App Alerts** – Receive instant notifications on your smartphone the moment a leak is detected, no matter where you are.
- **5-Year Battery Life** – Powered by high-capacity replaceable batteries with ultra-low power consumption for long-term reliability.
- **IP67 Waterproof Design** – A fully sealed, rugged exterior allows the device to function reliably even when fully submerged.

Long-Lasting

Enjoy up to 5 years of reliable use with this sensor, powered by replaceable batteries that last for 3 years.
